

## Mechanical Engineer

---

Leading Engineering Consultancy

Diverse range of projects

Enjoy coming to work each day!

We are seeking a motivated mid-level Mechanical Engineer to further strengthen our Mechanical team within our busy Building Services discipline.

### **In this role you will be expected to:**

- Provide detailed design and documentation of all mechanical components relating to building projects within the pharmaceutical, education, commercial, industrial & health sectors.
- Liaise directly with clients, architects and builders, responding in a timely and efficient manner
- Attend key site inspections and meetings
- Assist in the coordination of documentation and ensure that client requirements are met within the specified budget and time-frame

### **To be considered for the position we require you have the following:**

- Degree qualifications in Mechanical Engineering.
- Minimum of 5 - 8 years' industry experience (excluding student employment)
- Proven experience in the design of a range of building projects; preferably within a tier 1 consultancy
- The ability to work independently with minimal supervision
- Understanding of local building codes and statutory building regulations
- Good knowledge of the Melbourne/Australian engineering market.
- Exceptional time management and organisational skills
- Excellent communication (written & verbal) and interpersonal skills.
- A drive to further develop your career within a very technically competent team

### **What we offer:**

- Career growth with excellent training & development opportunities
- A range of employee benefits; including paid overtime, additional leave, active Social Club and corporate wellness program
- Flexible working arrangements
- Paid overtime and yearly bonuses
- The opportunity to work on a diverse range of exciting and challenging projects

Please send your CV and a covering letter to [hr@irwinconsult.com.au](mailto:hr@irwinconsult.com.au)

Please note that only those eligible to work in Australia should apply. *Irwinconsult is an EEO employer.*
