

Fire Safety Engineer

Leading Engineering Consultancy

Work on prestigious, award winning projects

Enjoy coming to work each day!

Due to an increase in exciting large scale projects, we are seeking a motivated Mid-level Fire Safety Engineer to further strengthen our talented Fire Safety team.

Job Description

As Mid-Level Fire Safety Engineer, you will be responsible for the development of performance-based fire safety strategies across a wide range of landmark projects from the residential, commercial, education and health sectors.

Under the direction and guidance of an experienced Associate, you will liaise directly with clients, architects and building surveyors; develop detailed fire safety strategies, designs and reports; identify risks and attend key site inspections and site meetings. You will assist in the management and delivery of project documentation, ensuring client requirements are met in accordance to the budget and time-frame.

To be considered for this position we require you have the following:

- Bachelor or Master's degree in Engineering/Science, and further recognised tertiary qualifications in Fire Safety engineering
- 3-7 years' experience in Fire Safety engineering, including experience within the local (Aus/NZ) market
- Demonstrated experience working on large-scale projects from a range of sectors, preferably within an engineering consultancy environment
- A team player attitude with a passion for knowledge sharing including assisting with training and development of junior staff
- Excellent communication skills, with the ability to liaise and build relationships internally and with multiple key clients and other external stakeholders
- A drive to further develop your career, build your own client base and move the business forward.

What we can offer:

Our office culture is family friendly, relaxed and social focused. We support individuals with mentoring and training to enable career advancement and growth opportunities within the company.

The successful candidate will be offered a competitive salary package and access to our numerous staff benefits, including flexible working arrangements. We strive for excellent work-life balance, and an ongoing commitment to professional development.

Please send your CV and a covering letter to hr@irwinconsult.com.au

Please note that only those eligible to work in Australia should apply. Irwinconsult is an EEO employer.
