Work on prestigious, award winning projects

Enjoy coming to work each day!

We are currently seeking a talented and motivated Mid-Level Electrical Engineer to join our Electrical team within our busy Building Services Discipline.

This is an excellent career opportunity to join a high performing team with an excellent variety of interesting and challenging projects.

As a mid-level electrical engineer you will be expected to:

- Project manage multiple medium-scale projects
- Carry out detailed electrical services design and analysis of major projects
- Prepare technical reports, calculations, design drawings and specifications
- Liaise directly with clients, builders, architects and other consultants
- Attend key site inspections and site meetings
- Assist in the coordination of design and documentation, ensuring that client requirements are met within the specified budget and time-frame

What you need:

- Degree qualifications in Electrical Engineering
- Minimum of 5-8 years' industry experience (excluding student employment)
- Proven experience in the design of a range of building projects; preferably within a tier 1, multi-disciplinary engineering consultancy
- Detailed knowledge of the Melbourne/Australian engineering market
- Strong knowledge of Australian codes and standards
- Excellent time-management and organisational skills
- Strong communication skills, with the ability to liaise and build relationships internally, as well as with multiple key clients and external stakeholders
- A team player attitude with a passion for knowledge sharing including assisting with training and developing our junior staff.
- Registered Building Practitioner in Victoria would be an advantage

What we can offer:

- Career growth with excellent training, mentoring and development opportunities
- A range of employee benefits; including additional leave and flexible work arrangements
- Active Social Club and corporate wellness initiatives
